Profile Summary

Frontend Engineer with 3.9 years of experience building scalable web and mobile applications using React.js, Next.js, React Native, and Redux. Strong expertise in developing responsive UIs from Figma designs, integrating REST APIs, and optimizing performance (up to 40% faster load times). Experienced in cross-platform development, state management, and testing with Jest/RTL. Currently serving notice period and open to opportunities in Bangalore, Pune, Hyderabad, and Delhi NCR.

Core Skills

Frontend: React.js, Next.js, React Native, Angular, Redux, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Responsive Design, SPA

Backend & Database: Node.js, MongoDB, REST APIs

Tools & Dev Practices: Git, Debugging, Agile, CI/CD, Webpack, Vite

Testing: Jest, React Testing Library

Performance Optimization: Lazy Loading, Code Splitting, Bundle Optimization

Professional Experience

Software Development Engineer | Litmus World, Bangalore

Jul 2023 – Present

- Developed and maintained React.js and React Native modules for enterprise apps, improving usability and performance.
- Built reusable UI components, reducing load time by 20% and improving maintainability.
- Integrated RESTful APIs and third-party services for seamless functionality.
- Implemented lazy loading & code splitting, reducing bundle size significantly.
- Mentored junior developers on best practices, code quality, and workflows.

React Native / JavaScript Developer | Bansal Tech Professional Pvt Ltd, Bangalore

May 2022 – Jun 2023

- Delivered features for Toneop Health (React Native) including Google Maps integration, Fitbit step tracking, dark mode, blog section, and expert panel.

- Built Toneop Eats (Next.js web app) end-to-end, achieving 40% faster load times with optimized components.
- Managed MongoDB queries, indexing, and user data operations.
- Translated Figma designs into pixel-perfect UIs and aligned with agile sprints.

React.js Developer | Kalyani Motors, Bangalore

Jan 2022 – May 2022

- Developed front-end components for Maruti Suzuki and KTM bike websites.
- Handled API integrations for car models, user information, and location submissions.
- Ensured responsive layouts and cross-browser compatibility using functional & class components.

Education

Bachelor of Technology (Computer Science & Engineering)

Dr. B.C. Roy Engineering College, Durgapur | 2017 | DGPA: 7.01

Key Projects

- Litmus World – Customer Experience Management Platform (React.js, React Native)
- Toneop Health – Health & Fitness App (React Native, MongoDB)
- Toneop Eats – Food Delivery Platform (Next.js)
- Kalyani Motors & KTM – Automotive Websites (React.js)
